

HEUSSEN: Partner Dr. Jan Dittmann among the top real estate lawyers in the WirtschaftsWoche survey

Munich, 27.01.2021: In the current survey of WirtschaftsWoche on the list of the "most renowned law firms and lawyers for real estate law", Dr. Jan Dittmann was recommended by the experts surveyed particularly frequently. This makes him one of the top lawyers for real estate law in Germany.

Dr. Jan Dittmann's practice focuses on real estate and construction law as well as renewable energies. In addition to legal advice on real estate transactions and real estate project developments, this includes advice on all construction law matters as well as litigation in court. The main focus in connection with real estate project developments is on city quarters and hotels. Another focus of activities is advising wealthy individuals (private clients) and family offices on real estate transactions and funds as well as on specific legal issues in connection with family offices.

For the list of the most renowned lawyers, the Handelsblatt Research Institute (HRI) asked 1960 lawyers from 160 law firms to name their most renowned colleagues in real estate law. A jury of experts then filtered 40 law firms from this list with 55 particularly recommended lawyers in real estate law.
