

### **HEUSSEN again in Who's Who Legal**

*Three attorneys listed in current issue*

*Munich, 18.02.2021:* In the current edition of Who's Who Legal by the London-based international specialist publisher Law Business Research Ltd. three lawyers from the full-service commercial law firm HEUSSEN are listed. Benedikt Murken is included in the list of the 31 "National Leaders", and thus amongst the leading German lawyers in private construction law. Procurement law specialist Uwe-Carsten Völlink is among the 34 leading lawyers in Germany in the field of "Government Contracts". At the same time, he is listed under the 26 leading legal experts worldwide in his field (Global Leader). Prof. Benno Heussen, who is one of Germany's leading lawyers in the field of "Data", is also highly regarded. He is also listed as one of the world's leading lawyers in the field of "Data: Information Technology".

The nomination is preceded by an extensive selection process. Each year, the research team contacts more than 50,000 practitioners who have previously been recommended for their work in their respective fields. They are asked to provide evaluations and feedback on people with whom they have worked closely in recent years; respondents include private sector and in-house lawyers, mediators, judges and consultants. These surveys are supplemented by client assessments.
